Professional Experience

Python Django Developer, Quickensol IT Solutions LLP 12/2024 – 03/2026
Pune Maharashtra

- Developed 2 web applications from scratch using **Python Django** and contributed to 10+ live projects through feature enhancements and debugging.
- Designed and implemented secure **RESTful APIs** for web and mobile applications.
- Worked extensively with **MySQL** for database schema design, query optimization, and efficient data management.
- Implemented **authentication** and role-based access control using Django's built-in authentication system.
- Integrated third-party **APIs** and handled **JSON**-based data exchange.
- Improved **API performance** by optimizing database queries and reducing response time.
- Collaborated with **frontend developers** for seamless API integration and smooth feature delivery.
- Provided **maintenance and technical support** for **PHP-based systems**.

Technical Intern, Profusion Tech Labs 07-2024 – 12-2024
Remote

- Assisted in backend development using **Python and Django**.
- Gained hands-on exposure to **AI/ML concepts**, including data preprocessing and model training using Scikit-learn.

Projects

Education Management Platform , Django Web App | Backend + API Development

- Developed a full-stack web application for managing tutorial institute operations using **Python and Django**.
- Designed and implemented **RESTful APIs** for user authentication, student enrollment, batch management, attendance, and timetable features.
- Integrated **MySQL** for structured and efficient data storage and retrieval.
- Built role-based access control for **Admin, Staff, and Students** with secure login and authorization.
- Created dynamic dashboard views and filtering for managing courses and student records.
- Optimized performance by enhancing database queries and reducing response times.
- Successfully deployed the application and maintained it in a production environment.

Enterprise Resource Planning (ERP) System, ERP System & Web Application

- Developed and maintained backend modules including user management, data handling, and reporting features.
- Integrated **AI chatbot functionality** to automate user interaction and query handling.
- Assisted in database design and management for efficient data storage and retrieval.
- Provided ongoing maintenance, bug fixes, and system enhancements for the live platform.

Skills

Languages: Python, PHP, SQL, JavaScript

Framework: Django, Flask, React

Database: MySQL, PostgreSQL

API: RESTful APIs, JSON Handling

AI/ML: Scikit-learn, Pandas, NumPy

Tools: Git, GitHub, Postman, VS Code

Education

BBA (Computer Application), K. J. Somaiya College, Kopergaon | CGPA: 6.86

HSC & SSC, Maharashtra State Board
